

Modern Application Development

Custom application solutions for the modern world

Your business is unique; your applications should be too. Capax Global provides high-quality solutions with predictable delivery. We do this with a transparent process, standards, and an unrivaled commitment to quality.

What is App Dev?

Capax Global provides custom development services to cover the entire application lifecycle from requirements, through delivery. Whether a small, on-premises departmental application or a cloud-based, mission-critical system, we have the experience and expertise needed to build it.

The Value

- High-quality code
- Predictable delivery
- Responsive to change

The Proof

- 20 years of satisfied customers
- Highly experienced team members

The Outcomes

- Phased delivery to see results early and often
- Comprehensive testing
- Clear standards and approaches

What our clients say

"Capax empowered ExakTime to move forward, providing top talent to augment our team. The team presented insight, architectural knowledge and used pre-eminent technology, delivering results and a product that exceeds expectations."

—Wayne R. Wise, Vice President of Development, ExakTime

The Capax Difference

We build comprehensive solutions that fit your business needs for features and scale.

At Capax Global, our team has an unmatched background in commercial application development which makes our modern application development, data platform modernization and advanced analytics practices enterprise class. We will be with you for your entire journey, no matter where you are starting from, using our IDEA-based approach: Innovate, Design, Execute, and Achieve.
